The data presented is not a recommendation of what child care should cost; instead it is a report of what is currently being charged for **full time** child care in the counties specified. Providers must base their fees on the cost of providing care. The term “Child Care Center” includes Licensed Child Care Centers. The figures in the tables above are the average monthly rates collected from a database operated by Care About Childcare-Five County.

The figures in the tables below are Monthly Local Market Rate Maximums as per the Department of Workforce Services (Oct 1, 2015). Subsidy may not cover the full cost of care; parents are responsible for the balance.

Licensed Center Monthly Rate
